## Test Content

The **Listening Comprehension section** measures your ability to listen to and understand English for interpersonal purposes, navigational purposes, and academic purposes.

The **Language Form and Meaning section** measures your ability to demonstrate proficiency in key enabling English skills such as grammar and vocabulary in context.

The **Reading Comprehension section** measures your ability to read and understand academic and non-academic texts written in English.

## During the Test

Each section of the test has a time limit. The test administrator will tell you when to start and stop each section. During each time period, you may read or work only on the section of the test you are told to work on. If you finish one section early, you may not go on to the next section before you are told to do so, and you may not go back to a section you have already worked on. Failure to follow this rule will be considered cheating, and your scores will be canceled.

When you take the test, you should work rapidly but carefully. Do not spend too much time on any one question, but try to answer every one. Some questions are harder than others. Your score will be based on the number of questions you answer correctly. It is to your advantage to answer every question, even if you have to guess.
